PROFILE

I have worked in IT support and administration for over nine years. For most of that time I have been the person people call when a laptop, an account or a phone line stops working: first at an Apple service centre, then in-house at Blueground and Dialectica.

At Blueground I supported colleagues in 22 countries and six time zones through Jira Service Management, and later took over the company's laptops and IT assets. That meant ordering and setting up equipment, managing accounts and access in Google Workspace and JumpCloud, keeping endpoints patched and following up on security alerts. I also wrote our Desktop, LAN and WAN standards.

In 2025 I spent a year outside IT as an automation engineer on hotel installations. I am now back in IT. At home I run a small Windows Server 2022 and Active Directory lab, where I break and fix things on purpose and keep a runbook for each fix. I am studying for CompTIA Network+ and learning Linux.

SKILLS

Support: L1/L2 help desk support on site and remote, Jira Service Management, working to SLAs, clear escalation notes, TeamViewer

Accounts and devices: Google Workspace Admin, Microsoft 365 Admin Center, JumpCloud MDM, onboarding and offboarding, access roles, MFA

Endpoints: Windows 10/11, macOS, iOS, hardware repair down to component level, printers and scanners, desktop images, Snipe-IT

Security: SentinelOne, Trend Micro Apex One, Bitdefender, NinjaRMM, patching

Networking: TCP/IP, DNS, DHCP, LAN/WAN and Wi-Fi troubleshooting, 3CX cloud PBX, Cisco Packet Tracer

Home lab: Hyper-V, Windows Server 2022, Active Directory, DNS, Group Policy

Learning: Linux and Bash, Git, Docker; first steps with Ansible, Terraform and GitHub Actions

EXPERIENCE

Automation Engineer, Velcotech G.P. (Athens) | Mar 2025 – Feb 2026

A field job outside IT: electrical automation and control systems for hotels and spas in Greece and abroad.

- Installed, wired and commissioned control systems on site with the installation crew, working from technical drawings up to handover.
- Found and fixed faults on systems that were already in use, on a fixed project schedule.
- Wrote up what we installed so the client and the next technician knew how it was set up.

IT Administrator, Dialectica (Piraeus) | Jan 2025 – Mar 2025

- Provided on-site and remote end-user support on Windows and macOS, using TeamViewer for remote sessions.
- Managed onboarding and offboarding, user accounts and role-based access (RBAC) in Google Workspace and Jira.
- Administered Microsoft 365, Atlassian, Slack, Zoom and NinjaRMM.
- Tracked IT assets in Snipe-IT and followed up on endpoint security alerts in Bitdefender.
- Installed, configured and maintained hardware, software, network equipment, printers and scanners.

IT Administrator / IT Support Officer, Blueground (Athens) | Nov 2021 – Dec 2024

IT Administrator | Feb 2023 – Dec 2024

- Managed the IT asset lifecycle for office and remote staff: ordering, inventory, setup and secure wiping, tracked in JumpCloud.
- Standardised desktop images and network setups, and kept the Desktop, LAN and WAN standards up to date.
- Kept endpoints patched and followed up on security alerts in SentinelOne and Trend Micro Apex One.
- Suggested process improvements and presented them to other teams.

IT Support Officer | Nov 2021 – Feb 2023

- First point of contact for colleagues in 22 countries and six time zones through Jira Service Management. Triaged tickets, met SLAs and escalated with full notes.

- Managed onboarding and offboarding across Google Workspace, Slack and Jira, and administered devices and policies through JumpCloud MDM.
- Tracked IT assets in the asset management tool integrated with JumpCloud.
- Installed, configured and maintained hardware, software, network equipment, printers and scanners.
- Supported and administered the company's cloud phone system (3CX).
- Implemented and documented the Desktop, LAN and WAN standards, and took part in process improvement work and cross-team presentations.

Technical Support Engineer, iSystem Greece (Halandri) | Dec 2018 – Nov 2021

- Repaired and maintained Macs, iPhones and iPads as an Apple Certified Macintosh and iOS Technician, including component-level hardware repair.
- Installed and maintained hardware, software, systems, networks, printers and scanners.
- Handled IT support requests, classified issues and resolved them within service SLAs.
- Identified urgent issues and escalated them through the defined escalation paths.

IT Store Support, Public (Retail World S.A.) (Athens) | Feb 2016 – Nov 2018

- Checked, troubleshot and repaired laptops, desktops, tablets and phones.
- Installed and upgraded software and hardware, and kept the store's computer systems up to date.
- Served internal and external customers quickly and met the monthly KPIs.

PROJECTS

Windows Server and Active Directory home lab | 2026, ongoing | github.com/panoskola/home-lab

- A small domain on Hyper-V: a Windows Server 2022 domain controller with AD DS and DNS, a Windows 11 client joined to it, and Group Policy.
- I break things on purpose (wrong IP or DNS, failed domain joins), fix them with nltest, dcdiag, ipconfig and Event Viewer, and write a short runbook for each one in Git.

Monitored cloud service (learning project) | 2026 | github.com/panoskola/site-analytics-iac

- A small web analytics service on an Oracle Cloud server, built with AI assistance as a way to learn Terraform, Ansible and CI/CD. I ran every step myself and worked through the errors along the way.
- Alerts go to Discord when the site is down or the disk fills up, and backups are restored automatically every week to prove they work.

CERTIFICATIONS

- CompTIA Network+ (N10-009), in preparation
- Apple Certified Macintosh Technician (ACMT)
- Apple Certified iOS Technician, Apple Professional Support
- LinkedIn Learning: Windows 10: Configure and Support Core Services; Windows 10: Manage and Maintain Windows 10; IT Security Foundations: Network Security

EDUCATION

Vocational Diploma, Electrical Automation & Robotics, IEK Delta, Athens | 2014 – 2016

LANGUAGES

Greek (native) · English (B2, good in writing, improving in conversation)
